Dear Exhibitors and Visitors,

Businesses can only be successful if their executives can make good plans and carry them out as well. Predictability is the lighthouse of businesses. We can never find our port without it.

Today is much harder to plan ahead than it was a few years ago. We all know the reasons: global pandemics, recession, climate change, war in our neighbourhood, sky-rocketing energy prices. These are the hardships hindering us all: exhibitors from all segments of the economy,

the organizers of trade conferences and we, who host these events. Today, the question is not whether we will have more exhibitors or visitors by the end of the year than two years ago. Instead, we are focusing on how we can cope with the hardships and continue the work we started together.

We all have learnt a lot from the experience of the past period. For example, we now know that even though digital solutions do widen and deepen the range of opportunities offered by the exhibition industry, they can never replace them. The feedback from our partners made it clear that nothing can make up for the personal meetings, which also justified our efforts invested into the greatest development project of the last decades. The renewed Hungexpo Budapest Congress and Exhibition Center is still Hungary's largest event venue that now offers truly 21st-century opportunities for all of its partners. Together with the Hungarian state, Hungexpo started the construction project because if you build, you have confidence in the future. Let me thank you for placing your trust in the future as you showcase your business and organize events in the renewed Hungexpo Budapest Congress and Exhibition Center, and visit our exhibitions and events.

If confidence in the future is vital anywhere, it is in our work – and this is not the proverbial “mandatory optimism”. We firmly believe we are going to be a part of your future success, just as we shared your hardships.

Gábor Ganczer
Chief Executive Officer,
Hungexpo Ltd.

25-28 January 2023

AGROmashEXPO
41st International Agriculture and
Agricultural Machinery Exhibition

AgrárgépShow

hungexpo

- SEEDS AND OTHER PROPAGATION MATERIALS
- CHEMICAL PRODUCTS
- AGRICULTURAL ELECTRONICS, MEASUREMENT TECHNOLOGY, DIAGNOSTICS, AUTOMATION

Gelen Tarih Sayı: 01/11/2022 - 1168
Agriculture is here.

Held together, AGROmashEXPO and AgrárgépShow form Hungary's most prestigious and largest agricultural exhibition. The event will showcase nearly the entire spectrum of Hungary's machinery market in Hungexpo's upgraded pavilions.

Besides the market-leading companies and the biggest international brands in distribution, the event will again feature all the key domestic machine manufacturing operators and place great emphasis on input (seeds and other propagating materials, pesticides, fertilizers, and pest relief substances), logistics, agricultural electronics and automation as well as viticulture, viniculture and garden management. As usual, the exhibition will be accompanied by a rich conference programme.

- AGRICULTURAL CONSERVATION
- WORK PROTECTION, WORK WEAR
- AGRICULTURAL SERVICES
- AGRICULTURAL-ENVIRONMENT MANAGEMENT AND REGIONAL DEVELOPMENT
- VITICULTURE AND VINICULTURE
- HUNGARIAN GARDEN

Gorgeous nature

The grand summit of hunting, fishing and nature enthusiasts of the Carpathian Basin will be held for the 29th time in 2023.

FeHoVa is the region's most significant hunting expo and the greatest Hungarian event for fishing shows. In addition to the professional demonstrations and the usual recurring events, visitors will also be treated to a number of popular attractions in 2023. The event will feature Hungary's top hunters, who will be sharing their experiences and presenting their special trophies while visitors can also meet the top angling champions of the country, who will share tips and tricks with their audience.

Simultaneous event:

2023 will see doors opening at the 31th Budapest Boat Show, which over the last three decades has not only become the biggest landlocked harbour in Hungary and the season-opening event of boating and water sports, but also one of the most significant domestic boating gatherings. As usual, the exhibition will showcase the entire spectrum of Hungary's boating supply along with last year's best innovations and the offers of companies dealing with water sports and the related equipment and services.

The main theme of Budapest Boat Show 2023 is, with the River Danube as its guest of honour, the event will focus on navigation opportunities on the Danube, with various programmes for professionals and the public on the stage and in the pool. The exhibition will be held together with Travel Exhibition again.

Hungary's No. 1 tourism fair, the Travel Exhibition will welcome professionals and travel enthusiasts for the 45th time in 2023. The event provides an unrivalled forum for tourism sector stakeholders to share their experience, best practices, to make deals and last but not least to meet visitors wishing to travel.

In 2023, the Travel Exhibition will play a prominent role in the development of sustainable tourism as a new professional task, since due to the increased energy prices, accommodation facilities, restaurants, attractions and other tourism service providers will need using new energy-efficient equipment and measures for sustainable operation, in order to build on them and become as sustainable as possible during the next turistic period.

The 2023 exhibition will welcome visitors in the renewed Pavilions E and D with such programmes as the Caravan Salon, the Off the Beaten Track Festival or Africa Expo Budapest. In addition, Budapest Boat Show, Hungary's greatest boat exhibition will be held as Travel's concurrent event again.

- FOREIGN COUNTRIES
- HUNGARIAN TOURIST REGIONS
- PROFESSIONAL ORGANISATIONS

The CONSTRUMA assortment of exhibitions is Hungary's prominent professional forum that covers the entire spectrum of home-making from construction and building engineering to interior design and home decoration. Thanks to its complexity, it is unique in the Central Eastern European region. For decades now, CONSTRUMA has been serving as the summit of Hungary's construction industry stakeholders where the professionals of the area seek answers for future challenges facing the construction industry. The presence of Hungarian and international brands guarantees that the public can get familiar with the latest technologies. The exhibition is accompanied by wide-ranging professional support and a rich conference programme which features internationally relevant events and a large-scale professional meeting of construction industry stakeholders. In 2023, the professional programmes and the exhibition focus on such themes as digitalization, environmental consciousness, circular economy and innovative architectural solutions. In close cooperation with our professional partners, we align the professional content of the 2023 exhibitions with the market demand in 2023 too. Together forming the assortment of home-creation exhibitions, CONSTRUMA, HUNGAROTHERM and HOME Design offer companies an opportunity to present the whole range of their products and services to tens of thousands of professional and end-user visitors.

THEMES

- CONSTRUCTION INDUSTRY, CONSTRUCTION MATERIALS, MACHINERY
- PORTALS, GATES, SHADING TECHNOLOGY, GLASS INDUSTRY (FRONTAL)
- ROOFING, TINNING INDUSTRY (DACH-TECH)

- WATER, HEAT, SOUND INSULATION, FACADE CONSTRUCTION (INTER-ISOLA)
- LIGHTING TECHNOLOGY, BUILDING ELECTRICITY, BUILDING AUTOMATIZATION (ELECTROLIGHT)

Hungary's largest building engineering exhibition HUNGAROTHERM is held biennially as part of the CONSTRUMA home creation assortment. The event's key themes are heating, ventilation and solar technology as well as renewable energies (RENEO). The novelties of other building engineering themes are also highly represented. The manufacturer's showcases are accompanied by high-end additional programmes, which attract a lot of visitors as well. The 2023 exhibitions focus on building engineering solutions, renewable energy sources, digitalization and modernization.

HUNGAROTHERM is the summit of building engineering providers. In addition to the intensive presence of manufacturers, the competitions, meetings and programmes for building engineers, mechanics, fitters and future professionals also add to the event's attractiveness. The construction industry's new challenges have brought changes in the area of building engineering and renewable energies as well, so it's worth using the opportunity to present the latest trends and product lines for the widest possible audience in next spring's HUNGAROTHERM exhibition.

HOMEDesign –strong part of CONSTRUMA Exhibitions - showcase everything you may need for home decoration and interior design, kitchen technology, bathroom equipment and living room interiors. The majority of visitors to the entire assortment of exhibitions are specifically interested in this area. We are planning for a more thematic layout for the exhibition in 2023 with a special focus on such key themes as KITCHEN, BATHROOM & WELLNESS (including tiling) and HOME INTERIORS (with flooring and design).

Showcasing all areas of interior design and home decoration, the event has always laid great emphasis on presenting the latest Hungarian design trends, which will be featured in the works of local designers presented at the Hungarian Design stand. Ever since the first event of this kind, the professional segment of the exhibition has been supported by the conference and other professional programmes and demonstrations of Hungarian Wood and Furniture Industry Union FABUNIO, along with the project coordinated by the National Association of Interior Designers presenting the latest design trends in the form of interiors.

Beside its presence and practical demonstrations, the National Industry Board of Stone Carvers and Artificial Stone Contractors also organizes professional conferences each year to contribute to the event.

INDUSTRY DAYS International Industry Trade Exhibition will be held again in HUNGEXPO Budapest Congress and Exhibition Center on 16-19 May 2023.

This exhibition is Hungary's largest and most significant business event in the industry, allowing the latest products and services to be showcased along with the most up-to-date technologies and systems at the same time and place. Offering complex solutions for small, medium and large enterprises, the Y2023 professional exhibition will be complemented by a rich conference programme in cooperation with state and professional partners. Exhibitors and visitors can exchange information directly about professional trends and utilize the inter-industry synergy as well.

Simultaneous event:

11th AUTOMOTIVE HUNGARY International Trade Exhibition for Automotive Industry Suppliers

- INDUSTRIAUTOMATION – process automation, security technology, industrial electronics, electrotechnology, building automation, system integration

There is the way to the future.

Awaiting visitors for the 11th time, AUTOMOTIVE HUNGARY, the International Trade Exhibition for Automotive Industry Suppliers will be held in May 2023.

Over a decade ago, we created the exhibition as a meeting forum for the stakeholders of the Hungarian and regional automotive industry: car manufacturers, suppliers as well as small and medium enterprises.

In order to respond to the increasing interest in these events over the years, domestic car factories will be joined by suppliers, part manufacturers, the representatives of the manufacturing process and supplier services, automotive industry units and systems, manufacturers and distributors of automotive components and systems, SI companies, industry-related service providers and the representatives of the educational industry tied to the automotive industry.

Enjoying a wide professional and state support, the exhibition host conferences, supplier forums and the TECHTOGETHER engineers' competition.

Simultaneous event:

10th INDUSTRY DAYS international Industrial Trade Exhibition

Home is full of life.

The HOME Design Autumn Home-making Exhibition and Fair is focused on home creation as the autumn event presents a wide range of quality and design products, activities, counselling and demonstrations.

The exhibition primarily focuses on providing a forum for members of the general public who wish to design their interiors or re-design their homes and want to get an insight into the market novelties and the domestic supply. In addition to the themes related to home interiors, the event also allows you to showcase such home-creation products as renewable energy sources, doors, windows, heating and ventilation technology, etc.

Additionally, the exhibition provides programmes for professional visitors (interior designers and decorators); conferences, workshops and demonstrations. The exhibition's key professional partner is Hungarian Wood and Furniture Industry Union FABUNIO which, beyond organizing professional meetings, contributes to the range of features on offer with a number of special demonstrations. As the other key partner, the National Association of Interior Designers will enrich the premium event with consulting services, professional discussions and presentations. The exhibition also provides an opportunity for a wider range of presentations: the range of exhibitors at the event include young designers and fabric designers.
